Consistent, Proven Outcomes

Revitalization Partners is one of the largest cross-border business advisory and corporate restructuring firms in the Northwest. We specialize in improving the financial results of companies and providing hands-on expertise in virtually every industry and circumstance, with a focus on small and mid-market organizations. Our experienced team of professionals consistently achieves outstanding results, while serving our clients with the integrity that they deserve, through professional business assessment, crisis management, increasing operational efficiency, financial restructuring and corporate reorganization.

Trusted Advisors in Time of Crisis

When crisis occurs, you need expert aid and third-party impartiality. The Revitalization Partners team is both experienced and accomplished with over 100 years of experience as CEOs, CFOs, COOs, Board Members, Investors, and Turnaround Managers. Having served as executives of companies ranging from pre-revenue to multi-billion dollar enterprises, our team brings the courage to speak the facts and follow through on tough decisions. We "hit the ground running" by performing rapid situational assessments, and successfully serve as "change agents" while often operating under intense pressure.

We apply operational management expertise in companies ranging from venture-backed startups to public entities, and effectively reposition companies faced with changing markets and/or funding situations. We work with both under-performing companies as well as healthy companies, to achieve and maintain profitability as they grow. As an independent third party, Revitalization Partners offers strategic counsel and tactical execution, working with investors, lenders, and the company while maintaining the interests of all stakeholders.

Experience – When it Counts

Our expertise in operational improvement, financing, cost control, performance assessment and enhancement, reconfiguration, crisis management and bankruptcy workout activities is second to none. We provide advisory services to management as well as serving as interim or full-time management as required. We also advise companies in the due diligence and execution of mergers or acquisitions.
